

**OHIO NURSING HOME QUALITY IMPROVEMENT PROJECT**

**Ohio Nursing Home IF (Injury-Free) Movement**

**How to Measure the Staff Safety Awareness Component**

Below is a general overview of how a facility may measure an employee’s safety awareness.

<p><b>How to measure staff safety awareness</b></p>	<p><b>Performance assessments, including training needs.</b></p> <p><b>identification of Training records to determine what is missing</b></p>	<p><b>% of Performance assessments that are complete</b></p> <p><b>% of Scheduled training that is complete</b></p>	<p><b>Track reported % on a monthly basis, by area/department</b></p>	<p><b>Review progress monthly at senior management meetings, and target areas for improvement</b></p>
