

Why Target Older Consumers?

Ohioans age 60 and older account for nearly 18 percent of the state's population. Each month, 12,000 Ohioans celebrate their 60th birthdays, and more than 2 million Ohioans already have a Golden Buckeye card. According to the U.S. Census Bureau, the mature market (age 60 and older) will grow more than 11 times faster in the next two decades than the remaining adult market.

Older consumers:

- Have more than \$1.6 trillion in spending power and a net worth that's nearly twice the U.S. average;
- Account for more than 40 percent of all consumer spending;
- Spend more than \$1 trillion on goods and services each year;
- Purchase 41 percent of all new cars and 25 percent of new toys;
- Account for 60 percent of all healthcare spending;
- Spend more per capita on groceries, over-the-counter products, travel and leisure than any other age group;
- Spend \$7 billion online annually; and
- Are the most brand loyal age group.
